

Breakthrough Collaborative

Career Opportunities

Deadline: Date Coming Soon
Year in College: Any
Work Authorization Required: No

What is it?

Breakthrough Collaborative provides a teaching fellowship residency that offers relevant, real-world training to a diverse group of college undergraduates, inspiring many to develop an interest in education careers. Talented college undergraduates teach and advise middle school students from low-income backgrounds at 25 sites across the nation. This mutually beneficial relationship creates a generation of inspired students and a pipeline of experienced leaders.

How does it help you?

You will be a teacher with real-life classroom experience. Professional educators, who serve as instructional coaches and mentors, will train you and provide feedback on a weekly basis to help you develop and practice skills to become a teacher, counselor, and mentor to middle school students. Teaching fellows receive a minimum of 100 hours of in-classroom teaching experience, curriculum support, and professional guidance.

How to sign up?

BTC is looking for a diverse group of teaching fellows from all academic majors, backgrounds, and with all professional interests to teach in their summer programs. Fellowships have stipends and DACA or TPS is not required. Learn more and apply:
