

WE ARE THE AMERICAN DREAM

TELL US ABOUT YOURSELF AND WHAT YOU DO.

“I help coordinate virtual and in-office visits for patients at a medical practice. We work with patients who have COVID-like symptoms but have tested negative to ensure they have a treatment plan in place and can stay out of the hospital due to fear of future exposure.”

TELL US WHY YOUR WORK MATTERS...

“I entered the medical field to be able to help others and am now doing just this. I travel to different clinics and help all kinds of different patient populations from seniors to children. Every patient is unique in their own way, but they are all the same in the fact that they need care. We are all one.”

WHAT UNIQUE PERSPECTIVES DO DREAMERS BRING TO THEIR WORK?

“I have an appreciation that, in these difficult times, we should not have separate categories of DREAMers versus U.S. citizens. We are all part of one team, one nation - trying to help one another.”
